

RUSSIAN SUCCESSES AGAINST AUSTRIANS

Petrograd Reviews Campaign
in Carpathians Since Be-
ginning of March.

ALL IMPORTANT PASSES
TAKEN BY CZAR'S ARMY

Seventy Thousand Prisoners and
Many Guns Reported to Have
Been Captured.

PETROGRAD, April 18, via London.
April 18.—The following official com-
munications concerning the progress
of the campaign issued from general
headquarters tonight:

"At the beginning of March in the
principal chain of the Carpathians we
held only the region of the Dukla
passes, where our lines formed an ex-
terior angle. All other passes, of Lup-
kow and farther east, were in the
hands of the enemy.

"In view of this situation our armies
were assigned the further task of de-
veloping, before the season of bad
roads, due to melting snows, began, our
position in the Carpathians, enveloping
the outlets into the Hun-
darian plains.

Planned Grand Attack.

"About the period indicated, the great
Austrian force which had been con-
centrated for the purpose of relieving
Fereny, was in a position between
Lupkow and Utsok passes. It was for
this sector that our grand attack was
planned. Our troops had to carry out
a frontal attack under very difficult
conditions of terrain.

"The attack, therefore, an auxiliary attack
was decided on a front in the direction
of Bartfeld as far as Lupkow.

"This secondary attack was opened
March 19 and was completely de-
veloped.

Enemy Resisted Desperately.

"The enemy opposed a most desperate
resistance to our offensive. They had
brought up every available man on the
front from the direction of Bartfeld
as far as Utsok passes, including even
German troops and numbers of caval-
rymen fighting on foot. The enemy's ef-
fectives on this front exceeded 300 bat-
talions. (An Austrian or German bat-
talion numbers 1,000 men.) Moreover,
our troops had to overcome great nat-
ural difficulties at every step.

"Nevertheless, by April 12—that is,
eighteen days after the opening of our
offensive—the bravery of our troops
enabled us to complete the task as-
signed and we had seized the principal
chain of the Carpathians on a front be-
tween Reghetov and Volosate of 110
versts (about seventy miles).

"The fighting subsequently has been
in the nature of actions in detail, in-
tended to consolidate the successes we won.

70,000 Prisoners Taken.

"To sum up: On the whole Carpa-
thian front, between March 12 and
April 12, the enemy have suffered enor-
mous losses and have left in our hands
prisoners alone at least 70,000 men,
including about 900 officers. Further,
we have captured 30 guns and 200 ma-
chine guns.

"April 16 the actions in the Carpa-
thians were concentrated in the direc-
tion of Rostok. The enemy, despite
the enormous losses suffered, continued
in the course of that day no less than
sixteen attacks in great strength.

"These attacks, all of which were ab-
solutely barren of result, were made
against the heights we have occupied
farther to the east of the front.

"Our troops during the night of April
16-17, after a desperate fight, stormed
and captured a height to the southeast
of the village of Foden, where we took
many prisoners. Three counter attacks
delivered by the enemy against this
height were repulsed.

"In the other sectors all along the
front there has been no change.

SPOT MARKED BY BUOYS.

Steps Taken to Remove Sunken

Schooner From Path of Navigation.

The owners of the schooner Mary S.
Ewing, which sank in the mouth of the
Potomac April 3 in the heavy gale that
swept this section, have decided to
abandon the schooner. As soon as
Lieut. Col. H. C. Newcomer, engineer
officer in charge of the district, that
includes the Potomac within its limits,
receives proper notice that the owners
will make no effort to raise the vessel,
he will take charge and ask for bids
for her removal. The sunken schooner
is regarded as a menace to navigation.

In the sinking of the Ewing, Capt. John
T. Dowdy and two men lost their lives.
The light-house authorities, to protect
navigation on the Chesapeake, have
marked the wreck of the Ewing with a
sighted buoy. The buoy has been lo-
cated in seven fathoms of water, 100
yards east of the wreck on the south
side of the Potomac, about 2 1/2 miles,
150 degrees from Point Lookout light-
house. There are about four fathoms
of water over the Ewing and it is most
project above water. The buoy shows
an occulting white light every ten sec-
onds, viz.: Five seconds, eclipse five
seconds.

To Change Angler's Name.

Before the steamer Angler, recently
purchased by Capt. William L. Davis
and others for service on the river, is
placed on her route her name will be
changed to William L. Davis, in honor
of the projector of the new line.

MOURNING DEAD WIFE, BARON REUTER A SUICIDE

Head of Great Newsgathering Con-
cern Found Dead; Revolver
Near His Body.

LONDON, April 19.—Baron Herbert de
Reuter, managing director of Reuter's
Telegram Company, was found dead yes-
terday at his home, near Reigate, Sur-
rey. A discharged revolver was found
near his body, and the authorities de-
clare there is little doubt he committed
suicide. Baron de Reuter was prostrated
by the death of his wife last
Thursday. Her body is still in the home
awaiting interment. Their only son is
in the army.

Held German Barony.

Baron Augustus Julius Clemens Her-
bert de Reuter was born March 10,
1852. He was educated at Harrow, Ox-
ford and Paris. His wife, whom he
married in 1876, was a daughter of the
late Robert Campbell of Buscot Park,
Berks.

Besides the son and heir,
who is in the British army, they are
survived by a daughter, who is the
wife of J. W. J. Douglas.

Baron de Reuter succeeded to the
title upon the death, in 1899, of his fa-
ther, who was created a baron of the
Duchy of Saxe-Coburg-Gotha in 1871.
Royal license for permission to use the
title in England was granted in 1891
by Queen Victoria.

The first baron was the founder of
Reuter's Telegram Company, one of the
leading newsgathering organiza-
tions of the world. In 1851, when
the cable was laid in the home
and France, the headquarters of the
company was transferred to London.

BREAD SCARCITY CAUSE
OF RIOTING IN AUSTRIA

Police Stoned by Mobs and Military
Stores Are Attacked and
Destroyed.

VENICE, via London, April 19.—Dis-
turbances due to the food problem are
reported from several places in Trent
and Bohemia. In Trent last Tuesday
crowds of women from the surround-
ing villages, it is declared, held a de-
monstration in front of the town hall,
and later in the evening the towns-
people joined in the demonstration
demand of bread or peace.

Troops are reported to have been
summoned, but the burghmaster inter-
vened and promised to increase the
daily allowance of bread from 240 to
300 grammes. This was done.

Mob Stones Police.

The outbreak was resumed Friday,
when a mob attacked the military
storehouse and stoned the police, sev-
eral of whom were injured. It is said
that a siege probably will be pro-
claimed in Trent.

At Leitmeritz, Bohemia, a mob is
said to have destroyed 100 wagonloads
of flour destined for the military. A
general exodus from Trieste is said to
be on, by Italian and wealthy Aus-
trian families taking refuge in Italy.

Unrest in Interior.

VERONA, April 18, by way of Paris,
April 19.—Travelers from the interior
of Austria bring reports of increasing
unrest resulting from the insufficiency
of the bread allowance which, although
it has been increased, still is considered
inadequate.

Demonstrations against the war are
said to be increasing in number and
violence, especially in Vienna and at
points in Bohemia, where mobs are re-
ported to have sacked storehouses in
which were stocks of provisions for the
army.

HUGH CAPERTON DEAD.

Former Washingtonian Succumbs in
Baltimore, Following Long Illness.

Hugh Caperton, a retired real estate
broker, formerly of Washington, died
yesterday morning at his home in Bal-
timore, after a long illness. He had
been ill several months, death being due
to hardening of the arteries.

Funeral services are to be held at
his late residence tomorrow, following
which the body will be brought to this
city and interred in Holy Rood ceme-
tery.

Mr. Caperton, who was born in
Georgetown, D. C., sixty-one years ago,
went to Baltimore in 1880 and became
engaged in the real estate business,
becoming a member of the firm of J. W.
Harvey & Son, Union Trust building.

He retired about ten years ago. His
father was the late Hugh Caperton, a
lawyer of this city, who was appointed
lieutenant governor of the militia of the
District of Columbia by President Buch-
anan. His mother was, before her
marriage, Miss Eliza Mosher, member
of the Baltimore family of that name.
His wife, Mrs. Mattie Booth Caperton,
formerly of Amelia county, Va., sur-
vives him.

MENHADEN SEASON LATE.

Cool Spring Has Retarded Chesapeake
Fishing Industry.

According to reports, but few of the
vessels in the Chesapeake are engaged
in the fishery. The season is late, and
the cool weather has retarded the fish-
ing industry. The vessels are not en-
gaged in the fishery, and the season is
late, and the cool weather has retarded
the fishing industry.

The menhaden fishing business is one
of the most important in tidewater
Virginia, large sums being invested in
the industry and many thousands of
persons depending upon it for a living.
It is estimated that more than fifty ves-
sels are employed in catching the fish
in the summer months and from the
early part of May until the coming of
cool weather the fishing steamer is
in fleets of a half dozen or more boats
can be seen in the mouth of the Potomac
and at points along Chesapeake bay
looking for schools of the fish. It has
been charged that the fish fac-
tories are not engaged in catching the
fish, and the managers of the plants,
who say that the fish are not worth
enough food fish to supply the tables
on the boats.

To Address Keep-Well's Friday.

Dr. Tom A. Williams is expected to
address the National Society of Keep-
well Friday evening in the parish
hall of St. John's Church on the sub-
ject of nervousness in children. The
lecture will be open to the public.

Talk on 1915 Peace Movement.

"The Peace Movement of 1915" was
the subject of an address in the audi-
torium of the Church of All Souls last
night by J. B. T. Tupper. Arthur D.
Gall also spoke on the subject.

WASHINGTON WALKERS ON ANNIVERSARY OUTING

Observe Year-Old Existence in
Eight-Mile Stroll Through Rock
Creek Region.

Favored by the weather, walk lovers
of Washington yesterday went on their
anniversary hike, marking the passing

of one year since the inception of the
community walk in Washington.

Following is the "official" account of
the outing:

"So far as point of numbers some of
the leaders' expectations were not real-
ized on yesterday afternoon's walk, but
the jovial spirit of the crowd was so
perfect that, after all, little was left to
be desired. It seemed there could not be
less than 500, but a careful count show-
ed only 357, which, however, represents
a record crowd since the previous
spring. The entire walk from Georgia
avenue and Military road to Chevy

Chase lake covered nearly eight miles.
From Georgia avenue a new trail was
followed into Rock Creek Park just to
the right of Military road, making a stop
at Miller's cabin, thence along by the
east bank of Rock creek over the same
trail as that followed a year ago, along
by the Smiling pool (of which we read
so much in 'Bed Time Stories'), where
the beautiful flowers grow, around by
a field, past the same old haystack and
the old, historic clean-drinking manor,
thence by roads to the lake. Of the
flowers in most abundance were the
dogtooth violet, the anemone, white
saxifrage, bloodroot and common blue
violet.

"The walk for next Sunday afternoon

will be along Scott's run down to Eagle
rock along by the Potomac river. The
starting point will be at 38th and M
streets at 2:15, under the leadership of
W. Wells Cook. Tickets should be pur-
chased for Great Falls, the walk proper
to begin at Jackson station.

"The hikers feel it is not out of place
here to express an appreciation for the
generous advertising through the
columns of The Star, as well as other
newspapers of the city, and they hope
that during the spring months many
new nature lovers will avail themselves
of the opportunity to see the beauties
of Washington."

WILLS FILED FOR PROBATE.

Entire Estate of Prof. C. H. Plugge
Bequeathed to Nephew.

The will of Prof. Charles H. Plugge,
dated February 19, 1915, has been filed
for probate. He leaves his entire estate
to his nephew, Carl Ferdinand Hoffhoff,
with whom he made his home. The
nephew is also named as executor.

By the terms of the will of Minnie
Krackhardt, dated December 3, 1914, a
life interest in her entire estate devolved
to her daughter, Clara L. Marlow. On

the death of the daughter the estate is
to be held in trust by William R. and
Walter H. Marlow for the benefit of the
daughter's children—Virginia R. and
Elizabeth D. Marlow—until each arrives
at the age of twenty-five years, when she
is to have her share of the estate. Mrs.
Marlow is also named as executrix.

A bequest of \$250 is made to Celeste
E. Platter by the will of Mary Etta May-
hew, dated March 1, 1915. The remain-
ing estate is devised to her husband,
George F. Mayhew, who is also named as
executor.

If you want work, read the want col-
umns of The Star.

FOR ONE DAY ONLY—TUESDAY

These \$1.50 Center Tables
or Telephone Stands
